

Bush Signs Child Net Safety Law

Washington (Associated Press), December 04, 2002

President George W. Bush on Tuesday signed into law legislation to create a new kids-safe "dot-kids" domain on the Internet. "Every site designated 'dot-kids' will be a safe zone for children," Bush said in a small Roosevelt Room signing ceremony for the domain legislation. "We must give our nation's children every opportunity to grow in knowledge without undermining their character. ... We must give parents the peace of mind knowing their children are learning in safety."
